

The Million Dollar PPO

Transforming the Ordinary Dental Practice into the Extraordinary!

Fee for service Dentistry has long been considered the gold standard in private practice. Dentists still boast about not “taking” insurance or “not participating” when discussing their practices.

As the economy shifts and patients become more insurance conscious, the need and incentive to participate in preferred provider organizations becomes more evident. For those of us who have chosen to participate, there is a systematic, stress-free way to create a thriving, and profitable practice that provides high quality care and value added services.

Matthew Krieger, DMD
CEO

Dr. Matthew Krieger graduated from New Jersey Dental School in 1998. He started his practice in 2003 from scratch and built it to a full time practice in just one year. Despite one of our country's most significant recessions, Dr. Krieger has collected more than one million dollars, in 3.5 days per week, in each of the last five years, with 30% growth. In 2011 he collected over \$1,300,000. He has maintained an overhead of 57%, and has done all of this while participating with PPO Insurance plans. He is the founder and CEO of Million Dollar PPO, a dental practice management coaching and consulting firm. He lectures on practice management, CAD/CAM dentistry, and is a highly effective clinical/efficiency coach.
