

# A Small Change Can Do a World of Good

Made with  
**100%**  
recycled  
material

## We're switching to brown paper towels and stepping up sustainability

- **Timing.** The switch from our normal white towels to brown will be a rolling transition as we work through our existing inventory.
- **Why the Switch?** This change reflects our commitment to sustainability and offers a more sustainable and economical choice.
- **How they're Sustainable.** These products contain 100% recycled material, using more post-consumer recycled fiber.
- **Know and Share.** Now that you know our brown towels are made with 100% recycled material, please help us share the good news - and help us reinforce our commitment to sustainability. It's a positive thing!
