CONTENTS: 160 PRESATURATED WIPES (6 IN X 6.75 IN)

Net Weight: 1 lb 5 oz

EFFECTIVE. AVAILABLE. ECONOMICAL. AND WELL, JUST BETTER.

WE'VE SOLVED THE SHORTAGE IN PRODUCT AVAILABILITY.

We developed Swovo™ Medical and Commercial Disinfecting Wipes in response to the lack of product availability due to COVID-19. The pandemic has taught us a great deal about the significant gaps in essential products for the healthcare industry. **Through these gaps, we've recognized our strengths. We control 100% of our manufacturing supply chain and patented formula. This allows us to keep costs low and ensure product availability.**

EFFECTIVENESS EXAMINED

Effective against many microorganisms in 2 minutes, including SARS-CoV-2 (COVID-19) and Tuberculosis

TIME TESTED

Recognized as an effective disinfectant against hard to kill microorganisms for 20 years

PREMIUM QUALITY

Thick, pliable wipe made from homopolymer spheres to allow maximum contact and flexibility to disinfect surfaces, cracks, crevices, and corners of equipment

ALLOWS YOU TO DO THE REAL WORK

Quick kill times equals rapid room turnover which saves time for doctors, nurses, and hospital staff so they can concentrate on what's truly important

FAQs

CAN YOU PRIVATE LABEL? Yes! Contact us today to find out more.

ARE SAMPLES AVAILABLE? Of course, contact us today for your free sample kit.

DO I NEED TO WASH HANDS AFTER USE? Mark One recommends you wash your hands thoroughly after handling any disinfectant wipe.

WHAT IS THE LEAD TIME FOR AN ORDER OF WIPES? Lead time varies based on several factors. Please contact your sales representative.

WHERE ARE YOUR WIPES PRODUCED? USA, South Korea, China

WHAT IS LIST N? List N is a list produced by the EPA to inform consumers which wipes are effective at killing SARS-CoV-2 (COVID-19).

WHAT IS LIST B? List B is a list produced by the EPA to inform consumers which wipes are effective at killing Mycobacterium tuberculosis (Tuberculosis).

WHAT DOES IT MEAN TO HAVE A "KILL CLAIM"? Kill claims on the label (i.e. kills SARS-CoV-2) have been evaluated and approved by EPA to make consumers aware of the strength of the wipe.
