

PowerPeel®

50% and 70% Glycolic Peel Kits

Offers the only glycolic acid peel with little to no irritation. Our formula works with AHAs to provide comfort while delivering medical strength results. The PowerPeel Glycolic Peel can be left on for much longer than its competitors without irritation, allowing the glycolic acids to penetrate deeper and longer for maximum cell renewal. With the PowerPeel Glycolic Peel, you may achieve the skin enhancing benefits of a high-performance peel starting at your first treatment. This advanced technology increases the production of collagen and elastin fibers, and reduces the appearance of fine lines and wrinkles, thus improving skin tone, texture, color and elasticity. Immediately after the treatment you should be able to resume your normal activities. This peel can be successfully used on the face, neck, hands, and chest.

Includes: 4 oz. Pre-Peel Solution
4 oz. Refining Peel Formula
4 oz. Peel Neutralizer

(Rayon applicators sold separately)

Each kit contains formula to perform ~30 peels depending on treatment area.

50% Glycolic Acid Peel (pH 1.2)

70% Glycolic Acid Peel* (pH 0.6)

**Medical License Required for 70% Kit*

Use with Oasis Skin by PowerPeel Cleanser, Toner, Deep Moisturizer and Sheer Moisturizer with lactic acid for a skin care regimen to achieve maximum results.
