Skintensive

Skintensive Founders and Leadership

**DR. ANAR MIKAILOV, M.D.
FAAD**

Founder
**On staff at Rochester General Hospital /
Medicine-Dermatology Residency at
Harvard**

Dr. Mikailov is a Harvard-trained dermatologist with an expertise in high-risk skin cancer and medical dermatology. He is the senior editor of Fitzpatrick's Color Atlas and Synopsis of Clinical Dermatology 9th edition, the #1 best-selling dermatology textbook. He is dual-boarded in both Internal Medicine and Dermatology. He is recognized as a leader in consultative hospital dermatology, has published extensively and presented internationally. He practices medical and consultative dermatology full time in Rochester, NY.

**DR. VLADIMIR RATUSHNY,
M.D. PH.D. FAAD**

Founder
**On staff at Mass General Brigham,
Salem Hospital /
Dermatology Residency at Harvard**

Dr. Ratushny is a Harvard-trained dermatologist and fellowship-trained Mohs surgeon. He is well regarded for his expertise in Mohs surgery, high risk skin cancer management, general dermatology and hair transplantation. He is frequently invited to train and teach Harvard dermatology residents on hair loss and hair transplantation surgery. Dr. Ratushny completed his Dermatology Residency at Harvard. In addition to his medical training, Dr. Ratushny earned a PhD in Molecular and Cell Biology from his work at Fox Chase Cancer Center, where he studied cancer drug resistance mechanisms.

DR. JOHN BARTOLONE, PH.D.

Chief Scientific Officer
30+ years in Corporate R&D
PhD in Biochemistry
and a MS in Biophysics from UCONN

At Unilever, Dr Bartolone helped to build their Skin Science Center and led the creation of several Global R&D Science Programs including anti-aging. He invented many "first of its kind" products for the global market. His teams created numerous new skin care products including Unilever's first AHA + Retinol products.

Results after 3 weeks of using Skintensive Bruise Cream twice a day.*

Loved By Customers

+ 3,000 ★★★★★ Reviews

“ Was drawn to this product since it's all natural and has all the remedies to help with bruising. Marathon training and at the point I'm getting body work done to break up adhesions and scar tissue so recovering quick is so important! Noticeable difference in 1-2 days, great moisturizer and doesn't leave any of the oily stains some of the arnica products do. Highly recommend. Plus! The founders are Harvard grads. Will always support a company that is making a difference and vested in listening to the customers! Great for physios to add to their product lists too!

— Melissa ★★★★★

“ Works great on my “old people skin”. I bruise so easily now and this makes the bruises disappear faster than anything else I've tried.”

— Lyn ★★★★★

“ Works better than any other product that I have tried to help get rid of bruises on my arms due to thin skin.”

— Larry ★★★★★

“ This stuff really, REALLY works. Especially if you use it consistently multiple times per day, either as soon as the injury occurs or as soon as the bruise appears.”

— Bee-Bee ★★★★★
