To guarantee special pricing/offers, where applicable, please include the three-digit promo code when ordering. Henry Schein Dental reserves the right to discontinue this promotion at any time [including, without limitation, if supply or demand for the promotional products is affected due to extraordinary events]. Note: Participating in a promotional discount program (e.g., points, discount redemptions or other special awards) is only permissible in accordance with discount program rules. By participation in such program, you agree that, to your knowledge, your practice complies with the program requirements. For HS promotions: This promotion offers a bundled discount. The cost of any "buy/get" (or "no charge") items is a discount applied to your other purchases on the same invoice. The reportable value (unit price) of the "no charge" item will be identified on the invoice. To calculate the applicable discount on the other items on the same invoice, divide the total value (unit price(s)) of any no-charge item(s) by the total value (extension price(s)) of all other items purchased on the same invoice, and apply the resulting percentage equally to each item to determine net prices. For manufacturer promotions: The prices stated in the invoice or statement may reflect a discount or be subject to a rebate. You must fully and accurately report this stated discount price, or if applicable, any net pricing, after giving effect to any rebates, to Medicare, Medicaid, Tricare and any other federal or state program upon request by any such program. Accordingly, you should retain these records. It is your responsibility to review any agreements or other documents applicable to these prices to determine if they are subject to a rebate.

OPTIGLAZE™ Color

GC America

A revolutionary, versatile material developed specifically to stain and glaze composite, acrylic, and PMMA-type materials. It allows clinician to change shades, shift value, characterize, create effects, and glaze all resin-type prosthetics quickly. Its innovative, homogeneously dispersed nanofiller technology creates a more esthetic restoration. It adds color, surface gloss, and high wear resistance to artificial teeth, acrylic dentures, hybrid ceramic crowns, implant-retained dentures, composite crowns and bridges, temporary resin crowns and bridges, and acrylic permanently fixed with implants.

NaturalRock Die Stone

NaturalRock is a resin-reinforced Type IV die stone that has a smooth, glass-like finish and exhibits a high compressive strength with a very low expansion. This die stone pairs compatibility with exceptional performance and is the new go-to solution for crown and bridge work, porcelain molding, implant setups, cast partials, and high-precision cases. We know you'll love it. Sizes: 25lb, 47.5lb

- Smooth, glass-like finish
- Exceptionally dense for maximum strength
- Very low expansion (0.08%)"

VPM2 Programmable Vacuum Mixer

The VPM2 is designed for vacuum mixing all types of gypsums, plasters and investments. You can enter up to 30 separate programs using several parameters to custom mix a material. Utilizing multiple stages, the VPM2 can be programmed for time, speed and paddle direction:

- Pre-mix stage blends powder and liquid using alternating paddle direction, eliminating the need for hand mixing
- Twin chamber, oil-less vacuum pump offers a powerful vacuum quickly, providing a bubble-free mix
- Inlet filter prevents material from entering vacuum pump
- Display programmable in 5 languages (English, German, French, Italian and Spanish)

Digital Carving Pencil

The Digital Wax Carving Pencil is designed to carve and mold a variety of waxes used in the dental industry. The variety of carving tips and easy temperature control allow for precise waxing work.

- Easy to use
- Excellent heat conductivity
- Long service life
- Easy-to-use, visible control buttons

Warranty: 2 years (US & Canada Only)

Digital Water Bath

The Digital Water Bath is a digitally controlled unit that maintains temperatures in a range of 32°C to 80°C (89.6 °F to 176 °F) to soften a variety of wax or compound materials. The Digital Water Bath is CSA and TUV approved. Features include:

- Digital temperature control with indicator light
- LED screen which constantly displays the temperature in °F or °C
- Maintains temperature of 32°C to 80°C (89.6 °F to 176 °F)
- Stainless Steel Casing
- Removable stainless steel pan
- Accommodates Hanau water bath pan
- Unit stops heating when pan is removed

Note: This item replaces item number 05325
Warranty: 1 year (US & Canada Only)

Whip Mix Corporation

GI-MASK Automix New Formula

GI-MASK Automix New Formula provides accurate reproduction of soft tissue structure. The A-Silicone based gingival mask provides all information for implant supra-structures and frameworks. The aesthetic coloring of the gingival mask supports the clinical situation. It facilitates the preparation of esthetically excellent and perfectly functioning crown and bridge work. In addition it helps to prepare ideal conditions for periodontal hygiene.

Lab Putty

Lab-Putty is the outstanding polysiloxane laboratory modelling product material with 63 - 70 Shore A for model repairs, isolation and denture heat protection, keys and block outs and matrixes for formation of general occlusion and functional patterns. A smooth acrylic surface is guaranteed with the use of Lab-Putty hard for relining, keys and repair models. Separate isolation is eliminated. Its high heat-resistance (300° C) and perfect dimensional stability makes it suitable for soldering models (90 Shore A).
