

HENRY SCHEIN'S RECYCLING EFFORTS

16,010
METRIC TONS

In 2022, we recycled approximately 16,010 tons of material at our distribution centers globally. Approximately 90% of our recycled material was wood pallets and corrugated packaging.

2,506
METRIC TONS

We sent a total of 2,506 metric tons of waste generated by our distribution network to landfills in 2022 and are working on reducing this number progressively.

19,544
METRIC TONS

Our total generated waste in 2022 in our distribution network was 19,544 metric tons, of which only 78 metric tons were categorized as hazardous waste to landfill.

18,000
POUNDS

Every four years, when we replace our UPS battery modules, we recycle 18,000 pounds of batteries.

227
POUNDS

We also recycle fluorescent light bulbs; however, this is decreasing as we switch to LEDs. In 2022, we recycled 227 pounds of light bulbs.

\$11.8M
DONATED PRODUCT &
THOUSANDS OF TONS
REMOVED FROM LANDFILLS

In addition, by donating over \$11.8 million in health care products to over 100 global medical and dental non-governmental organizations through the Henry Schein Cares Global Product Donation Program, we kept thousands of tons of products with superficially damaged packaging out of landfills in 2022.
