

Vincent Junod
Vice President, EMEA Dental Group – DACH Region and
Dental Lab/Global Prosthetic Solutions
Henry Schein Services GmbH

Since September 2016, Vincent Junod has been Vice President, EMEA Dental Group – DACH Region (Germany, Austria and Switzerland) and Dental Lab/Global Prosthetic Solutions of Henry Schein. In his role, he is responsible for the development of the Laboratory Business in Europe as well as for strengthening the position of Global Prosthetic Solutions across Europe.

Throughout his career, Vincent Junod has held various positions within the medical arena, gaining profound professional experience. His previous positions include Senior Vice President at Coloplast, General Manager for Toshiba Medical in France as well as Business Unit Director for the Renal Division in France at Baxter. Before joining Baxter, Mr. Junod spent four years at Toshiba Medical working as a Sales & Marketing Director for France and twelve years at 3M working as a Sales & Marketing Manager and Sales Representative.

Vincent Junod is an active member of different company and social associations such as Terre d'Afrique or Resto du Coeur, i.a. to help disadvantaged population groups who suffer from malnutrition or to share business practices. He is also a member of the international Cesma Business School, developing Strategy & Marketing programs.

Mr. Junod is a graduate of the IMD (International Institute for Management Development) Lausanne with a degree in Master of Business Administration.
