

# Ultra Zinc Cream

Perfecting His and Her Skin

**IF SKIN CARE® ULTRA ZINC CREAM** is an over-the-counter (OTC) cream used to reduce the discomfort and symptoms associated with eczema and seborrheic dermatitis. Formulated with 0.25% Zinc Pyrithione is one of the most effective anti-itching and anti-flaking agents available. Topical, comfortable and easy to apply, this Zinc Cream is odorless and provides relief to those who suffer from chronic skin conditions such as poison ivy, poison oak, rashes, contact dermatitis and mild cases of psoriasis and eczema.

### FAST NOTICEABLE RESULTS

Results can be achieved immediately. Itching will subside and irritation will be relieved. Total clearing of moderate skin conditions can be realized within 7-10 days.

BEFORE

AFTER

### DIRECTIONS FOR USE

It is recommended to be applied twice a day until the condition is clear. Then to be used at least 3 times a week subsequently to maintain the healthy skin. It can be used as much as needed without harm.

- *Contains No Steroids*
- *Easy to Apply*
- *Comfortable*
- *Fast Acting*

*Your package arrived today and I immediately used the cream. After just one application, the itch went away and the redness has subsided. I feel a tingling sensation, so the cream must be working. Thank you so much."*

*J. Cyr – Hampton, NH*
