Expertise. Service. Efficiency.

340B Plus

Making the 340B and Prime Vendor Programs work for you

Health Centers can save 20%-50% on medications through the 340B Program. Yet less than 50% of health center sites are active users of 340B and Prime Vendor Programs. The complexity of enrollment and implementation is limiting Health Centers from maximizing the full potential of these programs.

With Henry Schein's 340B Plus, accessing discounted drug pricing for your Health Center has never been easier. Henry Schein has the experience and expertise to help you maximize the value from the 340B and Prime Vendor Program. The benefits for Health Centers are clear: 340B Program savings will fund more services and expand access to care to new patients.
