

URGENT CARE

2018 Edition

Urgent care centers rely on our trusted advisors for clinical, supply chain, technology, and business solutions needed to operate efficiently so that they can *focus on patient care.*

Catherine C. Gray
Market Development Manager
Urgent Care
Henry Schein Medical

Dear Urgent Care Provider:

Health systems are evolving to ensure they are delivering value to their communities and patients. Industry headlines tout major disruptions in health care and continuous updates on mergers between payers and providers, with a focus on making access to care more and more convenient.

Effective growth within a highly competitive and disruptive landscape will need to rely on an innovative and strategic outlook. Perhaps more than ever, it is important for your urgent care center to partner with experts that have a proficient understanding of how urgent care businesses work, enabling your practice to run efficiently and conveniently while focusing on ways to help set you apart and empower your growth.

Henry Schein's network of trusted advisors help address urgent care business and practice needs, including managing enhanced staging and setups; simplifying complete lab support (CLIA to moderately complex); coordinating manufacturing trainings; providing online supply-chain and inventory-management solutions; standardizing and coordinating a network of convenient care sites; and engaging in annual business reviews by site.

Our comprehensive selection of products and services includes value-added solutions for operating efficient practices and delivering high-quality care.

Inside this resource, you will find:

- **Telemedicine solutions** that provide a differentiator for convenient care settings
- **Moderately complex lab offerings** that can serve as a logical transition to effective emergency room diversion while meeting consumer preference
- **The latest flu classification** and testing solutions

We look forward to connecting and partnering in health care delivery together with you. For more information, please visit:

www.HenrySchein.com/UrgentCare.

Our best to you,

Catherine C. Gray

Henry Schein Medical

 **HENRY SCHEIN®**
MEDICAL

 **Rely on Us™**

Bringing Convenience to your Urgent Care Practice and Business Growth

Henry Schein Medical is structured to support your urgent care center growth. We offer a customer support coverage model that can help implement centralized decisions on a local level. Our team of experts brings years of convenient care experience to your business and practices. We partner with you on strategy development, streamlining operations, reducing cost, and accelerating your growth into new locations and services.

Whether you are managing a local, regional, or national network of urgent cares, we can help standardize and streamline your operations and cost.

We look forward to seeing you at the 2018 UCAOA Urgent Care Convention & Expo

May 6-9, 2018
Las Vegas' Paris Hotel

Henry Schein is proud of our ongoing partnership and support of the Urgent Care Association of America (UCAOA).

The UCAOA advances and distinguishes the role of urgent care medicine as a health care destination and supports the ongoing success of their membership through education, advocacy, community awareness, benchmarking, and promoting standards of excellence.

Like Henry Schein, the UCAOA is committed to excellence in all its endeavors, and is an industry leader that actively promotes the advancement and growth of urgent care.

Henry Schein is thrilled to participate in the 2018 UCAOA Urgent Care Convention and Expo from **May 6–9th at the Paris Hotel in Las Vegas.**

We invite you to come visit our Booth #320 to learn more about our network of products, services, and solutions. Strategic consultants and managers will be on site to hear from you and learn more about your business and practice needs.

Don't Let Language Be a Barrier to Diagnosis and Treatment.

HEALTH CARE IN YOUR LANGUAGE

- **On-demand, video remote translation and interpretation services**
- **250 languages, including American Sign Language (ASL)**
- **Our translation services provider:**
 - Provides all linguists with HIPAA and medical industry training
 - Requires all linguists to adhere to the professional standards of conduct for interpreters and translators, the National Council on Interpreting Health Care (NCIHC) Standards of Practice, and NCIHC Code of Ethics
 - Enters into confidentiality agreements with all linguists
- **American Sign Language (ASL) Interpreters are certified by RID, Registry of Interpreters for the Deaf**

CHALLENGES ADDRESSED:

- Growing Limited English Proficient Population
- When used as part of a comprehensive compliance program, can help a provider meet its obligations to provide language assistance to patients under applicable federal and state laws

The Value of Augmented Medicine™

Translator is offered both as an integrated service with Medical Cart and MobileDoc™, and as software only for providers who need the service but not the hardware. Contact your sales consultant for more details.

Equipped to Advance On-Demand Care.

Developing Next-Generation General Care, On-Demand Care and Distance Care Technologies.

Medpod products, services and consultative strategies are ideal for Urgent Care providers looking to load balance personnel, mobilize medical assets and resources, and optimize clinical workflows. With these empowering innovations from Medpod, Urgent Care providers can extend physician reach, make transformative care more accessible to patients and deliver...

The Value of Augmented Medicine.™

MOBILEDOC™

Making Great Care More Mobile Than Ever.

- Deployable in less than two minutes
- Innovative, compact, go-anywhere design
- Integrates best-in-class professional medical grade devices
- Remote physician controlled devices
- Real-time data polling and live streaming of medical device output
- Translator available

TRANSLATOR

Breaking the Language Barrier in Healthcare.

- 250 languages, including ASL
- On-demand, remote video translation and interpretation services
- Enables a multilingual practice
- All linguists are screened and trained in medical terminology
- Code of Ethics and confidentiality agreements
- Available on Medpod MobileDoc™ and Medpod Medical Cart™

Translator is offered both as an integrated service with Medical Cart and MobileDoc™, and as software only for providers who need the service but not the hardware. Contact your sales consultant for more details.

MEDICAL CART™

Quality Healthcare. Delivered On-Demand.

- Equipped with best-in-class medical devices controlled by remote physician
- Delivers comprehensive care anytime, anywhere
- Covers basic exams and vitals as well as specialty testing
- Multi-channel audio and video capabilities
- Real-time data transfer into EHR
- Translator available

Coming Soon: Ultrasound and Digital X-Ray.

Financing available.

CHOOSE TRANSFORMATION™

PATHFAST® CARDIAC BIOMARKER ANALYZER

This easy-to-use, benchtop chemiluminescent immunoassay analyzer provides affordable, core-lab quality results from whole blood samples in fewer than 17 minutes. With the flexibility to run up to 6 tests simultaneously, and results that are unaffected by hemolysis up to 1000 mg/dL, Pathfast ensures accurate results are available to the caregiver quickly—improving patient outcomes and overall cardiac care.

- Industry-leading precision and accuracy:
- Core-lab quality results: 5.1% CV for troponin I at 99th percentile cutoff
- High level of accuracy from combination of chemiluminescence technology and proprietary Magtration® technology
- Flexible, reliable testing—fast:
- Ability to run whole blood or plasma samples
- Flexibility to perform any of the assays—from 1 to 6 tests per run
- Simple, user-friendly:
- Single test reagent cartridge
- Color touchscreen controls
- Quality and compatibility:
- Easily interfaces with laboratory information systems (LIS)
- Compact design, big impact—ideal for:
 - Emergency departments
 - Stat laboratories
 - Core laboratories
 - Standalone emergency rooms
 - Urgent care facilities

SEKISUI FastPack® IP hCG Immunoassay

The rapid rise in the production of human chorionic gonadotropin (hCG) during the first trimester of a normal human pregnancy has made hCG a dependable indicator of the presence or

absence of an implanted embryo. In addition to pregnancy testing, the ability to quantitate levels of hCG is useful in the evaluation of ectopic pregnancies, and in monitoring germ cell and trophoblastic tumors. The FastPack® IP hCG Immunoassay is a chemiluminescent assay based on the “sandwich” principle that provides a quantitative value in measuring the level of hCG in human serum or plasma. Designed for use with the FastPack® IP System.

#25000056, FastPack® IP Control (126-8308)..... kit

SEKISUI FastPack® IP Vitamin D Immunoassay

12-Minute Assay

Vitamin D, known as the sunshine vitamin, is part of a group of fat-soluble prohormones that encourage the metabolism of calcium and phosphorus in the body. Increasing research is now uncovering evidence illustrating the importance of vitamin D in protecting against a whole host of health issues. It is also estimated that as much as half the population in the world is deficient in vitamin D. The FastPack® IP Vitamin D Immunoassay is intended for the quantitative determination of total 25-hydroxyvitamin D and other hydroxylated metabolites in human serum and plasma. This assay is designed for use with the FastPack® IP System, which is designed specifically for use in the practice laboratory setting.

#25000064, FastPack® IP Vitamin D Method Verification Kit (126-8299)..... kit

SEKISUI FastPack® IP Testo Immunoassay

Testosterone is a steroid hormone present in mammals that is primarily produced by the testes in males and the ovaries in females. The determination of the testosterone levels in the body is crucial in the assessment of hypogonadal states, tumor detection, and in monitoring hormone replacement. The FastPack® IP Testo Immunoassay is a chemiluminescent immunoassay for the in-vitro quantitative determination of total testosterone in human serum and plasma. Designed for use with the FastPack® IP System.

#25000056, FastPack® IP Control (126-8308)..... kit

SEKISUI FastPack® IP TSH Immunoassay

Realizing the importance of the thyroid hormones involved in regulating many of the systems found in the body, it becomes essential to have the ability to conveniently measure these values. The FastPack® IP TSH Immunoassay is a chemiluminescent immunoassay for the in-vitro quantitative determination of thyroid stimulating hormone (TSH) in human serum and plasma. Measurements of TSH produced by the anterior pituitary are used in the diagnosis of thyroid or pituitary disorders. Designed for use with the FastPack® IP System.

BD Veritor™ Plus System

The new wireless BD Veritor™ Plus System provides health-care providers and laboratorians in physician offices, clinics, hospitals, and integrated delivery networks (IDNs) with objective, lab-quality immunoassay test results within minutes. This fast and accurate solution streamlines the point-of-care (POC) diagnostic workflow and allows providers to quickly review patient results and determine the appropriate treatment in a single consultation. The new system can help detect infectious diseases such as influenza A and B, respiratory syncytial virus (RSV), and group A strep while the patient is still on site, which can enable faster decision-making for an earlier intervention opportunity.

- Faster access to test results: Help inform appropriate and targeted treatment decisions
- Improved workflow: The BD Veritor™ Plus Analyzer improves workflow with an Analyze Now or Walk Away mode, providing test results (with a print-enabled function) and aiding in decision-making while the patient is on site
- Improved traceability: The BD Veritor™ InfoScan module can scan 3 different identifiers (operator ID, specimen ID, and test kit/lot) that can be locally recorded, printed, or downloaded, and reduces hands-on time through automated documentation
- Modularity: Provides a unique solution to meet each testing site's preference
- Connectivity: BD Veritor™ InfoSync module provides the same benefits as BD Veritor™ InfoScan. Connects and documents tests results

- across multiple sites and can integrate with a hospital electronic medical record or laboratory information system
- Advanced particle technology: Enhances sensitivity by using a proprietary process to produce highly stable, modified colloidal metal particles.
- Adaptive read technology: Compensates for background. Nonspecific binding helps improve specificity to reduce false-positive results

Sofia® 2 Analyzer

Sofia 2 has 2 modes that can be used depending on your workflow requirements: Walk Away mode may be most convenient for reading a single patient sample. Advance Result Technology (ART) can provide results in as few as 3 minutes. Read Now mode may be most convenient for reading several patient samples.

Sofia 2 features:

- Accurate, objective and automated results in as few as 3 minutes
- Excellent performance compared to molecular and viral culture methods
- Flexible, dual-mode testing and simple, CLIA-waived procedures for a variety of laboratory environments
- Secure, remote instrument management through the Virena ecosystem
- Integrated data management automatically stores test and user history
- User and patient ID captured with onboard barcode scanner

The **ART** of urgent care testing.

A weary mom and her three restless and very fussy children just checked in to your clinic. Not surprisingly, your other patients and staff are growing weary and restless too.

No sweat because there's a better way to test with our **new** Sofia® 2 platform with **Advance Result Technology**, allowing you to quickly and accurately test the whole family. Sofia 2 will deliver accurate, objective and automated results in as few as **3 minutes** and strikes the right balance between functionality and flexibility to aid in diagnosing sick kids fast. Ask about our growing menu.

Introducing the newest platform in the Alere Influenza portfolio.

Alere BinaxNOW® Influenza A & B Card 2 with the Alere™ Reader

This latest technology is brought to you by Alere, the market leader in US rapid point-of-care influenza diagnostic assays. The reformulated Alere BinaxNOW® Influenza A & B assay offers innovative diagnostic solutions for rapid influenza testing in the physician office and hospital with Alere Reader technology.

- Nasal or NP swabs
- Rapid results
- Objective results
- Enhanced quality control
- Easy-to-use
- Workflow flexibility
- Result management
- CLIA Waived

Don't be left out in the cold!

Before you know it, flu and strep season will be here. Accurately diagnosing our friends Sniff and Streppy here can be a challenge as clinical symptoms overlap—which is why rapid tests have many advantages, including determining the correct diagnosis and treatment in minutes.

Be ready with the **OSOM® Ultra Flu** and **OSOM® Strep A Tests**, which are fast, accurate, and highly affordable.

What does this mean to you and your patients? It means you'll have the ability to test and treat in one visit to help improve patient care and reduce costs.

Answers for Healthcare. Awesome...yes, OSOM®.

HENRY SCHEIN®
URISPEC® PLUS
URINALYSIS
READER & URISPEC®
11-WAY URINE STRIP
PROMOTION

Provides dependable urine status results to detect early stages of many diseases, such as diabetes, kidney disease, and urinary tract infections. Instrument-read results have long proven to be advantageous for both busy health care professionals and patients. Urispec® Plus readings eliminate the subjectivity of visual color interpretation. The comprehensive interface options and the optimized printouts minimize risk associated with manual transcriptions. Reliable results can be obtained virtually immediately at the point of care.

- CLIA-waived
- Readings eliminate subjectivity of visual color interpretation, which makes urinalysis simpler and more reliable
- Features no-touch operation: After strip placement, measurement starts automatically, which makes urinalysis faster and more hygienic
- Easy switch between different test strips: Urispec Plus is for use with Henry Schein Brand Urispec 11-Way, 5-Way Plus, 4-Way, and GP+A urine test strips

HENRY SCHEIN®
URISPEC™ URINALYSIS CONTROLS

For Most Brands of Routine Urine Dip Sticks and Pregnancy Tests

A bilevel product packaged in plastic tubes and dropper bottles. Controls are liquid, ready-to-use, and are designed to validate urinalysis reagent strips. Packaged in plastic dip tubes and dropper bottles, they are convenient and easy to use. Long open- and closed-vial stability at 2°C–8°C for 2 years unopened, or 90 days once the Dip Control is opened, and 180 days once the Drop Control is opened. This allows the user ample time to utilize the product before expiration, resulting in cost savings.

- Values for all pregnancy test brands
- Assays for common brands of urine dip for routine urinalysis (2 parameter-10SG)
- Includes values for microalbumin, creatinine, and hCG
- Two distinct levels (normal and abnormal)
- Closed-vial dating up to 2 years with refrigerator storage
- 30-day stability at room temperature

3 Bilevel Sets, 15 mL/Tube (6 Vials)
Dip stick in tube, with open-vial stability of 90 days at 2°C–8°C.
(112-6841)..... ea

2 Bilevel Sets, 25 mL/Dropper Bottle (4 Bottles)
Open-vial stability of 180 days at 2°C–8°C.

HENRY SCHEIN[®] TRUE METRIX[®] PRO STRIPS

Advanced technologies—the meter, a complex algorithm, chemistry, and electrodes—on the test strip work together as part of the True Metrix[®] Pro system to produce accurate results. Featuring Triple Sense Technology[™], the system provides proven accuracy and confidence in results.

- No-coding technology eliminates need for coding of meter
- Code is assigned during manufacturing process
- Code is printed onto contacts on end of test strip
- Meter reads code on insertion

RELY ON US FOR QUALITY, SELECTION, PERFORMANCE, AND VALUE!

HemoCue Certified User Program

Its easy—Complimentary all HemoCue users!

HemoCue’s Certified User Program makes it easy to ensure your team is trained consistently on the basics of system use, specimen collection, and product maintenance. Upon completion of the online module your staff will receive a framed certificate as a qualified user of your HemoCue products.

Our modules allow you to:

- Train new staff with consistency via online module
- Receive annual reminders to renew certification
- Understand proper system use and care of your products
- Visit <http://bit.ly/hscertifieduser>

Glucose 201 Analyzer

The HemoCue Glucose Systems are based on a glucose-dehydrogenase method and consist of a small, dedicated analyzer and a unique, disposable microcuvette. They will produce lab-accurate results for diagnosing or monitoring diabetes, as well as monitoring neonatal blood glucose levels.

- More accurate and 68% higher reimbursement than glucose meters
- FDA-compliant unit when screening and diagnosing
- Analyzer: 0–444 mg/dL (0–24.6 mmol/L)
- Only 5 µL of capillary, venous, or arterial blood is needed
- No inherent limitations related to hematocrit or known drug interferences
- No recalibration needed between cuvette lots
- 3-year warranty

Hb 201+ Handheld Hemoglobin Analyzer

Offers the same important benefits as its predecessor, the B-Hemoglobin Photometer. Smaller size gives more flexibility and mobility to use the system anytime and anywhere. Performs an internal self-test. No control cuvette required.

- Produces results in less than 1 minute with lab-quality accuracy
- 3 easy steps
- Precalibrated, portable analyzer that requires minimal maintenance
- No calibration or instrument manipulation (between cuvette/reagent batches) is needed
- Safe and easy to use
- Reimbursable
- CLIA '88 waived
- 3-year warranty

Fast, Accurate, Efficient Lipid and Glucose Results at the Point of Care

Recognizing the strong connection between heart attack, stroke, and diabetes, the Henry Schein CardioChek® Plus analyzer provides rapid on-site blood chemistry values and measurements to help identify at-risk individuals.

It's one of the fastest, most cost-efficient, and user-friendly analyzers. The Henry Schein CardioChek Plus system accurately tests lipid profile and glucose simultaneously with one fingerstick. In as little as 90 seconds, it provides on-site results using the same technology as clinical laboratories.

Measures:

- Total Cholesterol
- HDL Cholesterol
- Triglycerides
- Glucose

Calculates:

- LDL Cholesterol
- TC/HDL Ratio
- LDL/HDL Ratio
- Non-HDL Cholesterol

Certified Accuracy

- CLIA-waived
- Meets NCEP guidelines for accuracy and precision
- FCC and ISO certified wireless communications
- CRMLN-certified for CHOL and HDL tests
- FDA-cleared

Fast

On-site lipid and glucose results in as little as 90 seconds
Simple quality control testing

Portable

Compact and lightweight, easy to transport and store
Handheld, battery-operated
Room temperature test strips

Patient-Friendly

Fingerstick with small sample

Wireless Communication

Easy data transfer

High ROI

Rapid throughput and low waste, with minimal start-up cost
Tests are reimbursable

Simultaneous testing of lipid profile and glucose with Henry Schein PTS Panels® test strips.

Contact your Henry Schein representative for more information.

Alere™ Cholestech LDX® System

Complete Lipid Profile, Glucose Lab-accurate lipid profile, glucose, ALT, AST, and hs-CRP results in about 5 minutes* from a simple fingerstick. Allows provider to get results while patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA waived
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between healthcare providers and patients

Triage® MeterPro™ Meter

High-performance, comprehensive cardiovascular and drugs-of-abuse testing in the laboratory or at the point of care (POC). Designed to provide diagnostic results quickly and easily. Quantitative diagnostic panel results are displayed and printed in easy-to-read numbers and highlighted when the result is above the cutoff. Qualitative diagnostic panel results are displayed as positive (POS) or negative (NEG), eliminating the need for interpretation of lines that often hamper qualitative diagnostics.

#55070MP, Meter
(496-3405)..... ea

- 16 immunoassays available
 - Results in about 15 minutes
 - Whole blood, plasma, or urine
 - Customizable test panels
 - Onsite training and implementation support
 - Results printed, displayed, and interfaceable

Point of Care

Trusted, above all.

More CoaguChek® XS test strips are used for point-of-care anticoagulation monitoring than all other brands combined.¹

Choose the proven partner in PT/INR testing. **Only** CoaguChek systems provide:

- ♥ **A standardized solution with a single-strip platform.** Count on consistent results across the continuum of care.
- ♥ **97% correlation to the lab.²** Feel confident in therapeutic decisions with lab-accurate data.
- ♥ **Heparin insensitivity.³** Focus on reducing heparin interference for more accurate results.

HENRY SCHEIN®
ONESTEP+ IFOBT OCCULT BLOOD MONOCLONAL ANTIBODY KITS

Innovative dry-base collection method that utilizes 1 sampling card for the collection of 2 fecal specimens, and requires only 1 immunochemical specimen preparation tube/test cassette system for analysis.

- Meets the American Cancer Society and the US Task Force for Colorectal Cancer (CRC) Foundation recommendation of multiple-day testing
- The sampling tab technology replaces unpleasant liquid buffer tubes and eliminates human error due to patient oversampling
- No dietary or drug restrictions
- 30-day stability/24-month shelf life from date of manufacture
- CLIA waived
- **Made in the USA**

25-Test Complete Kit (900-4413).....25 tests/kit
 Contains: 25 test cassettes, 25 buffer tubes & 25 patient return mailers.
 Cassettes (900-4414)..... 10/kit

HENRY SCHEIN®
ONE STEP™ + ER

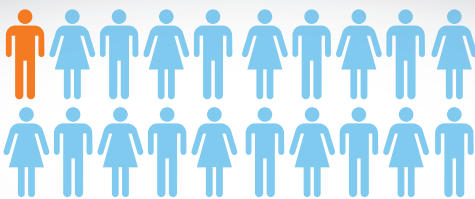

A rapid, convenient, and noninvasive qualitative method for detecting occult blood in the stool. It is intended for professional use as an aid in the diagnosis of asymptomatic gastrointestinal conditions that may manifest themselves by the presence of occult blood in the stool.

- Patented grid design minimizes the number of unreadable slides due to patient oversampling
- Easier to read borderline specimens
- Provides an intense blue reaction, resulting in better readability than traditional guaiac test kits
- 21-day on-slide stability
- 3-year shelf life with room temperature storage
- Familiar patient collection
- Made in the USA

RPR Card Tests for Syphilis

RPR (rapid plasma reagin) macroscopic nontreponemal flocculation test kits for the qualitative and semiquantitative detection of reagin antibodies in human serum. The macroscopic RPR carbon antigen enhances the visual discrimination between reactive and nonreactive results. Kits have a shelf life of up to 24 months from date of manufacture.

- Easy-to-interpret results available in 8 minutes
- Includes controls
- **Made in the USA**

Syphilis Test Cards

(653-4966)..... 100/box
 Contains: Each kit contains RPR carbon antigen, reactive control, weak reactive control, nonreactive control, a dropping bottle, a 20-g dispensing needle, 10- or 30-well test cards & disposable stirrer pipettes.

(115-5717)..... 5000/box
 Contains: Each kit contains RPR carbon antigen, reactive control, weak reactive control, nonreactive control, a dropping bottle, a 20-g dispensing needle, 10- or 30-well test cards & disposable stirrer pipettes.

Determine HIV-1/2 Ag/Ab Combo

The first FDA-approved rapid point-of-care test that detects both HIV-1/2 antibodies and free HIV-1 p24 antigen. This 4th-generation test has the ability to identify HIV sooner than conventional rapid tests, which rely solely on the presence of HIV-1/2 antibodies. It enables health care providers to diagnose HIV infection earlier.

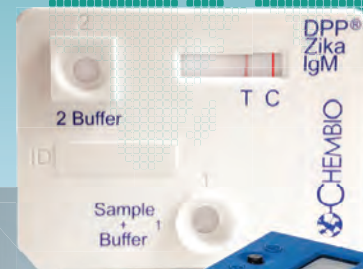

- Innovative: It's the first rapid point-of-care test that detects both HIV-1/2 antibodies and free HIV-1 p24 antigen
- Empowering: Enables health care providers to diagnose HIV infection earlier, allowing individuals to seek medical care sooner
- Dependable: Built-in quality controls let you know the test is working
- Efficient: - Requires minimal training - Test in 3 simple steps - Clear results in just 20 minutes
- Flexible: Multiple sample types; fingerstick and venous whole blood, serum, or plasma samples

#7D2648 (512-0022)..... 25/box

DPP[®] Zika IgM Assay System

The 15-minute rapid test for detecting Zika virus infection

For the detection of Zika virus IgM antibodies in fingerstick whole blood, EDTA venous whole blood, EDTA plasma and serum.*

Key features

- Fast: Provides results in as little as 15 minutes
- Flexible: Detects Zika virus IgM antibodies from 8 days up to 12 weeks
- Easy to use: Provides objective results using a simple, handheld digital reader (DPP[®] Micro Reader)

*The test has not been FDA cleared or approved. The test has been authorized by FDA under an EUA for use by authorized laboratories. The test has been authorized only for the diagnosis of Zika virus infection and not for any other viruses or pathogens. The test is only authorized for the duration of the declaration that circumstances exist justifying the authorization of the emergency use of in vitro diagnostic tests for detection of the Zika virus and/or diagnosis of Zika virus infection under section 564(b)(1) of the Act, 21 U.S.C. § 360bbb-3(b)(1), unless the authorization is terminated or revoked sooner.

Pneumovax® 23

Pneumococcal 13-Valent Conjugate Vaccine (Diphtheria CRM₁₉₇ Protein)

According to the ACIP recommendations published in September 2014, both pneumococcal conjugate vaccine (PCV13) and pneumococcal polysaccharide vaccine (PPSV23) should be administered routinely in a series to all adults age 65 years and older. The two vaccines should not be given at the same visit.

BD SafetyGlide™ needle

- The BD SafetyGlide needle has Activation-Assist™ technology, making a safe injection easier and more efficient.
- Fluid single-finger activation requiring minimal training and virtually no change in clinician technique.

BD Eclipse™ needle

- The BD Eclipse needle provides streamlined and effective injection safety.
- Wide textured finger pads and flanges prevent slippage and help you quickly find the safety mechanism.

BD Integra™ retracting syringe

- The BD Integra retracting syringe is designed to have low waste space. Low waste space may result in reduced medication waste.
- Activation can occur before or after the needle is withdrawn from the patient.

For vials: needle/syringe combination

RELY ON US FOR QUALITY, SELECTION, PERFORMANCE, AND VALUE!

We make needles that make everyone comfortable.

A lot hinges on having the right needles. That's why Terumo's SurGuard®3 offers some very convincing benefits.

- **Sharper** – Patients benefit from a more comfortable injection, as our needles are 20%* sharper than the market leader
- **Safer** – Safety mechanism includes a lock for both the needle and the hub, and is designed to minimize the ability to be removed
- **Smarter** – Clinicians can choose how they activate the safety mechanism using their finger, thumb or hard surface as dictated by the clinical situation

Contact your Henry Schein Sales Consultant at 1.800.772.4346 or visit www.henryschein.com/medical to place your order today!

HENRY SCHEIN® Pressure-Activated Safety Lancets

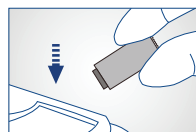

- APPLICATION: Glucose and many other in vitro tests.
- USER SAFETY: Needle is shielded before and after use.
- CONVENIENCE: Pre-loaded, pressure-activated design.
- COMFORT: Ultra sharp and beveled needle or blade.
- EFFICACY: Various depths to ensure accurate sample.

1. Carefully pull off the protective cap.

2. Push the lancet firmly onto the chosen sample site to fire.

3. Dispose of the used lancet in a suitable sharps container.

Draw a new experience.

BD Vacutainer® *UltraTouch*™ Push Button Blood Collection Set

Reduces accidental needlesticks up to 88%

Single-handed, in-vein safety activation instantly retracts needle after use.

Minimizes patient discomfort

PentaPoint™ bevel requires 32% less penetration force.

Improved venipuncture

Ultra-thin RightGauge™ cannula allows the use of a smaller gauge suitable for more veins, without compromising filling times or sample quality.

It's unparalleled – for patients and clinicians.

Now you can offer the BD Vacutainer® *UltraTouch*™ Push Button Blood Collection Set.

MOTION IS MEDICINE

Connex® Spot Monitor

- Designed for the physician-office environment with an easy-to-use, vivid touchscreen display
- More accurate hypertension diagnosis without slowing down your workflow thanks to automated blood-pressure averaging
- Improved capabilities for assessing respiratory conditions such as COPD, asthma, and community-acquired pneumonia (CAP), thanks to integrated professional-grade pulse oximetry
- Increase staff efficiency and eliminate data-entry errors with wireless transfer of vital signs directly into your EMR

IQvitals® Zone Vital Signs Monitor (VSM)

IQvitals Zone was designed to save time and eliminate errors, improving costs and outcomes.

Simplicity:

- Run with an easy-to-use touch screen or through a computer
- Wireless monitor connects to your computer—no cables, no manual pairing
- The device auto-connects with zero clicks through a secure Bluetooth® Low Energy (BLE) connection

Accuracy:

- Delivers quick, accurate measurements that are more comfortable for the patient
- 4 modes: spot, interval, continuous, and averaging
- Choose from industry-leading SpO₂ technologies, Masimo Rainbow SET®, or Nellcor OxiMax™
- Comes with an Exergen TemporalScanner™ thermometer

Connectivity:

- Connect to a 625 Barrier-Free® Exam Table with the integrated IQscale® to weigh patients quickly and discreetly from the comfort of the exam table; then data can be sent to the EMR with the push of a button
- IQconnect® framework provides a seamless connection from devices to the EMR system, allowing the user to operate all of their devices and transfer data to the EMR from a single screen

Life moves *fast* in urgent care.

That's why Welch Allyn vital signs and physical assessment devices provide the accuracy and efficiency *your clinicians—and patients—need.*

Green Series™ 777 Integrated Wall System

- Energy efficiency helps reduce costs
- Configurable to include ophthalmoscopes, otoscopes and vital signs instruments

Connex® Spot Monitor

- All-in-one device takes a full set of patient vitals in under a minute¹
- Quick, accurate vitals are sent directly to your EMR
- Digital capture helps reduce the opportunity for error and helps improve staff efficiency

Contact your Henry Schein representative to learn more about our full line of diagnostic solutions.

¹ Estimate based on standard acquisition times for Welch Allyn sensors: Approximately 15 seconds for blood pressure, 4 to 7 seconds for temperature, and 8 to 12 seconds for SpO₂

HENRY SCHEIN®
PRO PLUS SERIES PROFESSIONAL STETHOSCOPE

Combination adult-size chest piece is precisely machined to exacting tolerances from surgical stainless steel for outstanding performance and rugged durability. Available in 3 striking colors for departmental coding or personal identification.

- Extra-large bell (1 3/8" diameter) for unsurpassed low-frequency response
- Ultrasensitive diaphragm (1 1/8" diameter) for greater amplification and crisper high-frequency response
- Color-coordinated nonchill bell and diaphragm retaining rim for patient comfort
- Stainless steel binaurals with double-leaf internal spring fixed at 15° angle for greater comfort
- Reinforcing yoke molded into flexible 22" PVC "Y" tubing
- Deluxe PVC ear tips (in small and large) for the ultimate in wearing comfort and acoustic seal
- Spare diaphragm included
- Available in 3 striking colors for departmental coding or personal identification
- Not made with natural rubber latex
- Scope ID tag included
- Lifetime warranty
- Weight: 6.5 oz
- Overall length: 31"

Braun ThermoScan® PRO 6000 Ear Thermometer

Offers speed and accuracy for all types of patients. Exclusive ExacTemp technology provides an active user feedback system to ensure proper positioning and improved accuracy. Lightweight, simple, fast, and accurate. Preheated probe tip and sensor provide reliable temperature readings. Has automatic probe-cover eject button for quick-and-easy disposal of used probe covers. 3-year limited warranty.

- Innovative PerfecTemp[™] technology adjusts for variability in probe placement
- ExacTemp[™] technology detects stability of the probe during measurement
- Designed to take quick and accurate readings, to improve patient satisfaction
- 60-second pulse timer assists with manual measurement of pulse rate and respiration
- Electronic security features help prevent theft and loss
- Small or large cradles for probe cover storage that pop up for easy attachment
- Optional charging station stores 200 probe covers, with rechargeable battery
- 6' or 9' security tether options keep device attached to cradle

Ritter 250 LED Exam Light

Features LED technology for longer life, brighter intensity and reduced energy consumption. Provides up to 25,000 hr of lighting—more than 12 times longer than a traditional halogen exam-room light.

Light head size:

4½" diam. x 4" long.

Height: 36" long, flex length: 22".

- **Light source:** 12V, 3 LEDs, MR16 type (with glass cover). Illumination @ 18": 1,800 fc.

- **Color temperature:** 4,000°K. Life: 25,000 hours

- **Electrical:** 115V AC, 50–60 Hz, 0.12A.

Power cord: 8' hospital-grade plug

- **Mechanical:** Light head size: 4"L x 4½" diam.

- **Flex arm:** 22"L x 0.585" diam.

Neck material: high carbon steel covered in vinyl

- **Base tube:** 36"L. Outer tube diameter: 1".

Tube material: steel

- **Standard base housing:** 2½"H x 13" diam.

Weight: 12 lbs

626 Barrier-Free® Examination Chair

Many health-care providers are not aware of current standards for proper blood-pressure measurement. If this isn't addressed, it leaves health systems at serious risk. 9.8% of the population is affected by overestimation of high blood-pressure errors. Multiply the cost of treatment for hypertension by the typical patient panel size and the cost of overtreatment could be as much as \$135,000 per each practicing physician. The impact of overmedication can also result in complications such as dizziness, fainting, exhaustion, or even patient falls. The Midmark 626 is the first exam chair of its kind designed to promote proper patient positioning for a more accurate blood-pressure measurement.

- Easily position patients for a better BP measurement
- Powered movement of the back section ensures the patient's back is supported
- A Barrier-Free® low chair-height allows the majority of patients, even female patients with heights in the 3rd percentile, to place their feet flat on the floor

better | **BP**

better care

As health systems struggle to standardize care, blood pressure inaccuracy is one of the biggest areas of concern. Almost half of the population has high blood pressure.¹ **See how Midmark can help you improve the accuracy of blood pressure measurements with the new 626 Barrier-Free[®] Examination Chair.**

To learn more, call **1-800-P-Schein** or visit: **henryschein.com/medical**

Burdick ELI™ 280 Touchscreen Electrocardiograph

With Comprehensive Features
Compact and lightweight, the ELI™ 280 electrocardiograph provides comprehensive functionality in a portable, touchscreen device. The easy-to-use ELI 280 is designed to meet the demands of high-volume ECG environments. 10% high-resolution color LCD, with convenient touchscreen, displays up to 12 leads of ECG data for immediate review and plotting. Widely recognized Mortara resting-ECG interpretation algorithm uses gender-specific and adult and pediatric criteria to provide a silent second opinion for resting ECG interpretation. ELI 280 offers a choice of either the innovative WAM™ wireless acquisition module or the AM12™ acquisition module. Both include replaceable lead wires, lead fail indicator, and remote control with buttons for ECG acquisition and rhythm printing. ELI 280 incorporates Mortara's unique Best 10 feature, which automatically selects and displays the best 10 seconds of ECG from memory, reducing the need for repeat ECGs caused by patient movement or other sources of ECG artifact. ELI 280 easily integrates with cardiology management systems for increased efficiency and optimized workflow. With automatic time sync and the ability to obtain orders and reports with a single touch, the ELI 280 can save user time and effort. Experience the benefits of bidirectional communication via internal modem, LAN, or wireless LAN with Mortara's E-Scribe™, as well as third-party PACS systems via XML, PDF, UNIPRO32, and DICOM®.

Primary benefits:

- **Data visibility.** The 10" high-resolution color display, with intuitive touchscreen capability, clearly presents all 12 leads of data simultaneously.
- **Best 10 technology.** Capture the best 10 seconds of ECG data from system memory, reducing the need for repeat ECGs.
- **Wireless data acquisition.** Increase workspace flexibility by acquiring 12-lead data without the need for a tethered cable.
- **Streamlined functionality.** Easily integrates with your practice and data management systems for increased efficiency and optimized work flow. With multiple connectivity options, it can save users time and effort.

NEW!

HENRY SCHEIN®

EASYONE® AIR SPIROMETER

The new, all-in-one revolution in lung-function testing. Built for healthcare providers large and small, EasyOne Air puts the power of the most advanced spirometry testing tools in the palm of your hand. Revolutionary TrueFlow ultrasound technology provides unprecedented accuracy and reliability. Equipped with ready-to-use EMR connectivity and a user-friendly interface, EasyOne Air makes the best in lung care available anywhere.

- Portable and PC-based solution
- Large, color touch-screen
- Wireless connectivity to the PC via Bluetooth
- Instant interpretation based on ATS/ERS guidelines
- Rechargeable battery
- Pediatric incentive screens available with EasyOne Connect
- Calibration-free
- Compatible with EasyOne Connect

MADA

AsthmaMD™ Peak Flow Meters

Inspired by physicians and clinicians who help develop products, these pocket-sized meters help patients measure their lung performance and anticipate attacks.

- Measure peak expiratory flow
 - Lightweight, portable, and accurate
 - Can be easily cleaned without disassembly
 - Compatible with a convenient, physician-developed mobile app
- (131-3290)..... 10/box

HENRY SCHEIN®

NEBULIZER COMPRESSOR SYSTEM

Quality designed to deliver prescribed medication into aerosol mist for easy inhalation to the bronchial lung passages. Small and lightweight for easy storage and travel mobility. 1.18 kg.

- Operating pressure range: 8–16 psi
- Compressor flow range: 5–8 lpm
- Average nebulization rate: >0.20 mL/min

Nebulizer System (112-7063).....	ea
Contains: 1 compressor nebulizer machine, 1 disposable nebulizer, 1 connection cannula or air tube, 1 mouthpiece & 5 filters.	

WelchAllyn®

SpiroPerfect™ PC-Based Spirometer Kits

Accurate, Integrated Patient Information at Your Fingertips

- View real-time Flow/Volume loop and Volume/Time graphs
- Instantly verify quality and variability of test performance
- Motivate children with incentive graphic
- Reduce risk of cross contamination with single-use disposable transducers
- Select single and multiple flow calibration protocols

Easy on-PC Spirometry System

The Easy on-PC uses the power of your PC, laptop, or tablet, leveraging True Flow ultrasound technology for a complete spirometry solution.

This PC spirometer uses pediatric incentives, displays inspiratory and expiratory real time curves, and offers challenge testing. Some of the essential features include:

- Flexible EMR capabilities
- Trending
- Selectable predicted values and interpretation
- Automated quality control
- Supports multiple languages

ZOLL

ZOLL AED Plus®

Bringing Lifesaving Defibrillation to Everyone

The only AED with CPR feedback and an ECG waveform. By supporting CPR as well as defibrillation, this device can help every unresponsive victim. Features Real CPR Help®, a tool that is able to actually see what user is doing and provides audio and visual prompts to help them do it with confidence and clarity.

- Provides a one-piece electrode for accurate placement
- Uses consumer lithium batteries that are easy to replace, long-lasting, and inexpensive

Semi-Automatic Unit
(866-7559)..... ea
 Contains: AED, electrodes, batteries, carry case, ECG, wall-mount bracket & operator's guide.

Fully Automatic Unit
(119-7910)..... ea
 Contains: AED, electrodes, batteries, carry case, ECG, wall-mount bracket & operator's guide.

HeartSine® samaritan® PAD 350P AED

The 350P is a clinically advanced, lightweight, compact, easy-to-use, and portable AED. Audio and visual prompts guide the user step by step through the rescue process. From trained first aiders to professional responders, the 350P is designed so that anyone, anywhere, anytime can save a life. It's lifesaving, pure and simple.

- SCOPE™ Technology: HeartSine's unique biphasic waveform gives unrivaled performance and optimizes the chances for defibrillation success.

- The practical Pad-Pak™ incorporates the battery and electrodes in a single-use cartridge.

How It Works

1. The rescuer turns on the HeartSine samaritan PAD
2. Clear, calm instructions guide the rescuer through visual and audio prompts
3. The system guides user from pad application to shock delivery, if required. A CPR tone and flashing icon coaches the rescuer in delivering chest compressions according to ERC 2010 Guidelines

350P Key Differentiators

- Compact and lightweight: 28%–56% smaller than other AEDs on the market and weighs only 2.4 lb
- The samaritan PAD has a rating of IP56, providing the 350P defibrillator with the highest level of protection from dust or moisture ingress in the industry
- 8-year warranty as standard demonstrates the reliability of this quality unit
- Drop-tested in accordance with IEC 60601-1
- Field-upgradeable to the latest AHA/ERC guidelines
- Automatic self-check
- Integrated metronome prompts the CPR chest compression rate
- Events are recorded with the time, date, ECG trace and duration, shock delivery information, and CPR intervals, downloadable to a PC with optional SAVER® EVO software
- CE marked and FDA cleared

Protective Collar
5" x 20"..... ea

Specify:
Light Blue (100-0013) Mauve (101-2591)
Beige/Tan (101-2573) Textured Gray (101-3752)

Should be stored hanging up.

HENRY SCHEIN®
X-RAY APRON HANGER

For adult or child cling shield. Helps prolong the life of X-ray aprons.

- Heavy-duty, white epoxy-coated steel: easily mounted to door or wall
- Provides safe storage for aprons when not in use: helps prolong the life of X-ray aprons
- Dimensions: 8¼"H x 14¾"W x 1¾"D

(100-3530)..... ea

Wolf
Tri-Rak Apron and Glove Rack

Wall-mounted Tri-Rak holds a protective apron and a pair of protective gloves.

Dimensions: 16"H x 28"W x 8"D
(594-8562)..... ea

Wolf
Gonad Shield

0.5-mm Lead Equivalency Protection
Specifically designed to protect the genital area, the gonad shield comes with straps to hold it in place.

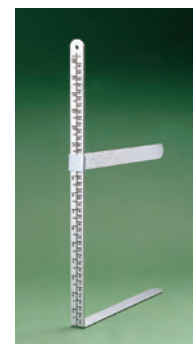

(594-6940)..... ea

Wolf
Adjustable Mobile Shield

Designed to protect the patient against scattered radiation, this shield is ideal for chest, skull, and spine radiography. The screen is made of lead vinyl with a 0.25-mm lead protection and is attractively covered on both sides by easy-to-maintain vinyl. It is 24" (60 cm) wide and is adjustable with a minimum height of 24" (60 cm) and a maximum height of 48" (122 cm). It is mounted on an all-welded, durable chrome-finished frame and rolls easily on 4 conductive casters.

Specifications: 48"H (Open), 30"H (Closed) x 26¾"W x 18"D (at Base)
(201-4707)..... ea

Wolf
Thickness Caliper

Calibrated in inches and centimeters, this aluminum caliper is perfect for measuring areas to be X-rayed. It will provide years of accurate use.
(594-9442)..... ea

Wolf
L and R Marker Clips

Fast, convenient method for marking X-ray films. Made of high-quality stainless steel. Clips over the cassette frame and reveals L or R during patient's exposure.

(100-4294)..... ea

INTRODUCING
THE NEXT GENERATION
OF WIRELESS DR DETECTORS

RAYENCE
Digital Imaging Solutions
www.rayenceusa.com

The new family of Rayence C-Series wireless detectors are constructed with a lightweight Carbon-fiber design, are shock and water resistant, and ergonomically designed with tapered, recessed edges and sure-grip backing.

Other features of our C-Series detectors include:

- Built-in Image Storage
- Auto-trigger Technology
- Detector Sharing Functionality
- Auto Image Rotation
- Sleep Mode
- ISO 4090 Cassette Size Standard

SPINEL 3G

SPINEL 12HD

GEMSS

North America, Inc. · gemss-northamerica.com

For more information contact
a representative from

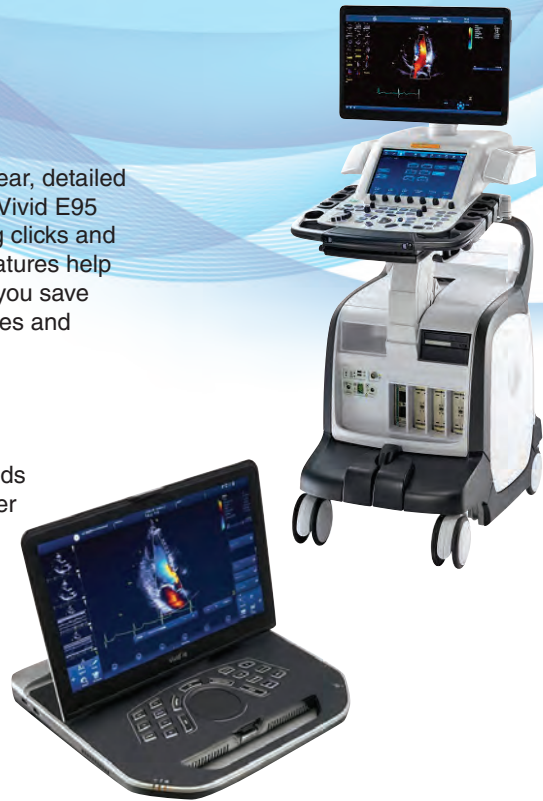

Vivid E95

Minimize the distractions. Expand your focus. Now you can obtain clear, detailed imaging quickly and easily. New technologies and workflow tools on Vivid E95 provide fast, accurate visualization and quantification, while reducing clicks and repetitive tasks. You'll love how these cSound-enabled automated features help streamline both routine exams and advanced studies. With the time you save and insights you gain, you can concentrate on evaluating critical cases and delivering what matters most—high-quality, efficient care.

Vivid iq

GE Healthcare's new compact directly addresses your changing needs with a combination of portability and power that fits right in—wherever your journey takes you. Physicians expect exceptional imaging. The administration demands efficiency. And patients deserve excellent care. All at today's increasing patient volumes. Count on Vivid™ iq's combination of power and portability to help you achieve the speed and quality in echo this environment demands.

Contact your Henry Schein sales consultant for more information.

SAMSUNG

HS70A

The Samsung HS70A is a top of the line diagnostic ultrasound system. It is designed to fit into a number of applications including Cardiology, Gynecology and, Radiology.

- This exceptionally quiet device allows physical exams to be performed, including auscultation, while the ultrasound system is turned on.
- To enhance the image, the HS70A with Prime features a 23-inch full high-definition (FHD) LED display, delivering superior image contrast on a large ultrasound display.
- For operator convenience, a gel warmer can be installed on both sides of the control panel.
- The design of the HS70A with Prime makes it easy to move in any situation.

HM70A

Featuring the latest in advanced imaging technology all incorporated in a compact hardware, the new HM70A is the perfect choice for physicians and sonographers who want to deliver excellence in clinical efficiency and patient care wherever they go.

- High quality clinical images strengthen users' diagnostic confidence thus enabling more accurate diagnoses
- Intuitive easy-to-use features simplify and increase productivity of examinations.
- Quick boot time and accelerated processes help users attend to more patients in fast paced clinical environments.

HENRY SCHEIN®
ULTRASOUND GELS

Blue
Multipurpose, hypoallergenic, medium-viscosity ultrasound gel that is bacteriostatic for patient satisfaction. Excellent conductive agent with superior lubricating and clinical features for the most common professional diagnostic and imaging procedures. Simple operation and disposal. Long shelf life.

- 8.5-fl-oz Bottle (900-4094).....ea
- 5-liter Bottle (900-4095).....ea

HENRY SCHEIN®
ULTRASOUND PAPER #110HD

For Use with 110 mm Sony and Mitsubishi Printers
High-density video imaging media.

- 110 mm x 20 meters (900-4305)..... 5 rolls/box

THERMASONIC® Gel Warmer

Three-bottle gel warmer warms ultrasound gel to body temperature. Durable wall-mountable construction. With warranty.

- Maintains constant temperature
- Low electrical demand
- High-density, impact-resistant composite
- Heat-indicator lamp
- Adjustable thermostat
- Illuminated power ON/OFF switch
- Hospital-grade plug and power cord
- UL and CSA listed

- #82-03 (110-1471).....ea
- Contains: 1-120-V multibottle gel warmer & 3 dispensers of ultrasound couplant.

HENRY SCHEIN®
BLACK AND WHITE THERMAL VIDEO PRINTER PAPER

- 110 mm x 18 m Roll HG (High Gloss) (112-5631).....5/box
- 110 mm x 20 m Roll HD (High Density) (112-5630).....5/box
- 110 mm x 20 m Roll STD (Standard) (112-5632).....5/box

Eclipse® Probe Covers

- Pre-gelled inside with Aquasonic® 100 Ultrasonic Transmission Gel
- Not made with natural rubber latex
- Nonirritating, nonsensitizing, non-sterile
- Only 1 probe cover is required for each procedure

- #38-01, 1 1/4"W x 9 1/2"L (101-7052)..... 100/box
- #38-03, 1.69" W x 9.5"L (727-0001)..... 100/box

HENRY SCHEIN®
CLEAR ULTRASOUND GELS

Multipurpose, hypoallergenic, medium-viscosity gel is clear, dye-free, and bacteriostatic for patient satisfaction. It is also an excellent conductive agent with superior lubricating and clinical features, making it suitable for the most common professional diagnostic and imaging procedures. For use in therapeutic ultrasound, diagnostic imaging, and other external procedures that require a thick medium with excellent lubricating and glide purposes. Will spread evenly without running or drying under standard clinical applications.

HOW ARE YOU MONITORING THE EF

THE THREE COMPONENTS CRITICAL TO MONITORING THE STERILIZATION PROCESS

MECHANICAL

Mechanical monitoring involves checking:

- Sterilizer gauges
- Computer displays or printouts
- Documenting in your sterilization records that pressure, temperature, and exposure time have reached the levels recommended by the sterilizer manufacturer

Other signs of mechanical failure include:

- Wet wrappers
- Corroded instruments
- Solutions boiling when door is opened
- Steam leakage
- Chamber door won't open

CHEMICAL

A chemical indicator should be used inside every package to verify that the sterilizing agent has penetrated the package and reached the instruments inside.

MAXITEST STEAM STERILIZATION INTEGRATOR
Precise, easy to read format provides permanent physical proof of sterilization conditions.
(570-0310) 100/Bag
(570-0311) 1000/Bag

STERILIZER INDICATOR TAPE
60-yd rolls, individually wrapped. Seals autoclave bags, tubing, pouches, and CSR wraps, indicating that sterile conditions have been attained on packages that have been sterilized by steam.
1/2" (104-8181) ea.
3/4" (104-6133) ea.
1" (104-8993) ea.

INDICATOR STRIPS
For steam and chemical sterilizers. Indicator ink changes from white to black, indicating sterilization process has been completed.
(102-6332) 250/Box

BIOLOGICAL

Biological Indicators are the only process indicators that directly monitor the lethality of a given sterilization process.¹

Per ANSI/AAMI standards, steam sterilizers should be monitored at least weekly, preferably every day the sterilizer is run.

MAXITEST MAIL-IN SERVICE
Mail-in service includes:
3 bacterial spore test strips (2 test strips and 1 control strip) per test package.
Postage is prepaid and culturing service is included. Monitors all sterilizers including steam, chemical vapor, dry heat, and EtO. Third-party documentation serves as tangible, legal document where proof of sterility testing must be provided. Immediate and confidential notification of test failures. Test results available electronically.
12-Test Package (101-5830) ea.
Contains: 12 packets, each containing 2 test strips & 1 control strip. Not for export.

MAXITEST IN-OFFICE BIOLOGICAL MONITORING SYSTEM
In-office system for monitoring steam sterilizers. Results in 24-48 hours. Simply process vial in a normal sterilizer cycle, then activate vial incubate, and record results. If any spores survive process, vial medium will turn yellow. Incubator is 24 volts and holds up to 14 indicators.
Starter Kit (102-6076) ea.
Contains: Box of 25 indicators, an incubator, crusher & record keeper.
Indicator Refill (102-5804) 25/Box (112-6848) 100/Box

MAXITEST BOWIE-DICK TEST PACK
Disposable pack used to evaluate the efficacy of air removal and steam penetration in prevacuum steam sterilizers. Includes frequency of use, instructions for use, and storage/shelf-life information preprinted on the box for ease of use and staff training. Lead-free and easy to interpret.
(570-0309) 30/Case

MAXITEST BIOLOGICAL INDICATOR TEST PACK
The Maxitest Steam BI Test Pack with Maxitest Class 5 Integrator is indicated for use in routine monitoring and sterilizer qualification testing. Allows users to immediately release processed loads per ANSI/AAMI standards. Steam sterilizers should be monitored at least weekly, preferably every day the sterilizer is run.
(570-0312) 25/Case

The Centers for Disease Control and Prevention

MECHANICAL and CHEMICAL indicators

do not guarantee sterilization;

however they help detect procedural errors

(e.g., overloaded sterilizer, incorrect packaging) and equipment malfunctions. Mechanical and chemical monitoring should be done for every sterilizer load.

EFFECTIVENESS OF YOUR AUTOCLAVE?

WHAT ARE YOUR OPTIONS?

BUY IT:

M9 UltraClave® Automatic Sterilizer
The Ritter M9 packs all of the reliable sterilizing power you need into a compact unit perfect for areas with limited space. With our strong heritage of quality, value and reliability, you can't go wrong with the Ritter M9.
M9 UltraClave® (386-7984)

M11 UltraClave® Automatic Sterilizer
With one of the largest chamber sizes of any tabletop sterilizer on the market, the Ritter M11 is designed to optimize sterilization output—reducing time and effort, but not effectiveness.
M11 UltraClave® (386-8917)
Door and Dam Gasket Kit (386-7195)

Ritter M3 UltraFast® Automatic Sterilizer
When your practice requires instruments to be processed quickly, the M3 UltraFast® delivers. Sterilize unwrapped instruments in only 6 minutes and pouched instruments in just over 10 minutes.
M3 UltraFast® (114-6900)
M3 Printer (386-4614)

EZ9 Plus and EZ11 Plus Autoclaves
The EZ9 Plus and EZ11 Plus are designed to meet the most current sterilization standards (ANSI/AAMI ST55). They help practitioners meet today's challenging workloads and regulatory requirements.
EZ9 Plus Autoclave (668-0764)
EZ9 Plus Autoclave with printer (668-6249)
EZ11 Plus Autoclave (668-1267)
EZ11 Plus Autoclave with printer (668-4088)

EZ9, EZ10, and EZ10K Fully Automatic Autoclaves
With the simplicity of one-touch design all your sterilization and drying needs are fulfilled. The Tuttnauer EZ9 fully automatic autoclave will fill, sterilize, exhaust, and dry at the touch of a button.
EZ9 (668-0401)
EZ10 (668-0402)
EZ10K KwiKlave (668-0444)

ValueKlave 1730
The ValueKlave 1730 will satisfy all of your basic sterilization needs at an economical price. The compact size (7" chamber) makes it a perfect primary unit for small offices or a second autoclave for larger practices.
ValueKlave (668-2244)

HENRY SCHEIN®
DISPOSABLE VAGINAL SPECULA

Recommended for routine gynecological exams. Made of hard, clear, nontoxic, high strength plastic resin.

- Allows examination of vaginal mucosa at a 360° angle without rotation
- Provides wide range of adjustability (angular and elevation adjustments)
- One-handed manipulation for ease of operation
- Self-holding in various opening positions
- Decreases risk of contamination
- If needed, apply lubrication for better comfort during examination
- Made of hard, clear, nontoxic, high-strength plastic resin

HENRY SCHEIN®
FENESTRATED DRAPES

Sterile, with 3" Round Fenestration, Tissue/Poly/Tissue

- Allows access to the operative site while it protects surrounding area
- 3" round fenestration option is die cut and heat sealed, leaving a smooth, even edge that prevents linting
- Blue/white combination for antiglare
- Generously sized
- Individually packed, 300 per case (6 dispensers of 50 each)
- Not made from natural rubber latex

Blue, 18" x 26" (900-4685)..... 50/box

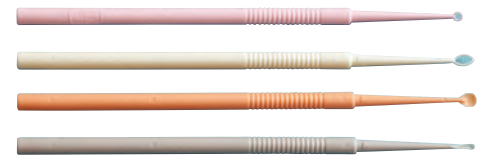

HENRY SCHEIN®
NON-FENESTRATED DRAPES

Poly-lined, Sterile, Tissue/Poly/Tissue

- Heat sealed along 2 outer edges to ensure a pinhole-free plastic layer that guarantees maximum protection against bacterial strike-through from below
- Features polyethylene lining between 2 layers of absorbent-strength tissue, virtually eliminating risk of bacterial migration and strike-through
- Using blue-tissue side up prevents glare
- All sterile fields are available in convenient dispenser boxes of 50 each

Blue, 18" x 26" (900-4686)..... 50/box

Spoon, Gray, Small (900-4671)	
Spoon, Peach, Large (900-4672)	

EarPopper®

This ear-relief device balances pressure in the middle ear by delivering a safe, constant stream of air into the nasal cavity. During the moment of swallowing, the air opens the Eustachian tube, clearing the middle ear, relieving negative ear pressure, and allowing any fluids to drain. For children and adults suffering from problems caused by flying, allergies, colds, elevator rides, swimming, and scuba diving.

Rhino Rocket® With Applicator

PVA Expandacell foam for epistaxis management after trauma or surgery.

Patented applicator:

- Protects foam from moisture prior to insertion
- Aids in placement and insertion
- Minimizes blood containment concerns
- 30 seconds to insert
- Provides gentle, but firm mucosal compression on the tamponade of anterior or middle segment epistaxis
- When in contact with moisture, foam absorbs and swells to 6 times its compressed diameter
- String attached for retention and easy removal
- 8 sizes to treat pediatric to posterior bleeds
- Sterile

CRITERION® POWDER-FREE LATEX SURGEONS' GLOVES

Powder-free to help eliminate powder-related complications and irritation. Advanced polymer coating on the inside surface allows for easy donning when hands are wet or damp. Microtextured surface and optimized tack level provide excellent grip in wet or dry conditions. Supersoft latex film and anatomical design provides exceptional comfort to reduce hand fatigue even during long procedures.

Gloves.....50 pair/box

Specify:

5½ (570-0635)	7½ (570-0639)
6 (570-0636)	8 (570-0640)
6½ (570-0637)	8½ (570-0641)
7 (570-0638)	9 (570-0642)

CRITERION® CR

Polychloroprene Sterile Surgeons

- For the latex-sensitive user this glove offers a similar fit and feel to latex
- Excellent tactile sensitivity with a textured surface and beaded cuff for enhanced gripping and protection
- Unique formulation allows gloves to be worn for extended periods without hand fatigue
- Dark green in color allows for instant identification as a non-latex glove solution
- Ideal for all oral, surgical and implant procedures

Gloves.....50 pair/box

Specify:

5½ (112-7079)	7½ (112-7083)
6 (112-7080)	8 (112-7085)
6½ (112-7081)	8½ (112-7086)
7 (112-7082)	9 (112-7088)

POWDER-FREE SURGICAL GLOVE SOLUTIONS

**POWDER-FREE:
OUR TIME IS NOW**

DISCOVER OUR NEW
ENCORE® Perry® Style® 42 PF

- Exceptional value in powder-free category
- Delivers the same clinical experience as the time-honored Original Perry® Style 42
- Features our new SMART Pack packaging

Powder-free gloves have long been shown to be much safer for both patients and healthcare workers. Effective as of January 18, 2017, the FDA has banned the use of powdered surgical gloves, powdered patient examination gloves, and absorbable powder used for lubricating surgical gloves. The FDA ruled these products present unreasonable and substantial risk to healthcare providers, patients and other individuals.

Ansell is ready to provide the **solutions you need** with the addition of the ENCORE® Perry® Style 42® PF to our already broad ENCORE® PF product range.

HENRY SCHEIN®
MEDICAL

Medication Adherence

Henry Schein is proud to present the USA Rx pharmacy discount card that will save your patients money.

There's no registration. Simply have your patients ask the pharmacist if the card will save them money!

Get trusted discount cards sent to your office!

Call Us: 1-877-581-4526
Email Us: henryschein@usarx.com

About the USA Rx Card

- Free for patients and free for practices
- Accepted at over 60,000 pharmacies across U.S.
- No paperwork or enrollment
- Cards are preactivated and ready to use
- Share your card with your family and friends
- Covers brand and generic medications

Benefits to Your Practice

- Patients love the free savings
- Increased medication compliance
- Increased patient loyalty
- Fewer pharmacy calls

The card without limits

Our program covers most FDA approved brand and generic prescription drugs so you can make the best choices for you and your family.

Patients love the free savings

Patients simply take the card to the pharmacy and save up to 75% on their medications.

Accepted at over 60,000 pharmacies across the U.S.
Walgreens - Kroger - Target - Walmart - CVS - Rite Aid
Costco - The Medicine Shoppe - Safeway - Winn-Dixie

Powered By

have time for all her questions

At athenahealth, we believe your providers should focus on care, not chasing charts from outside your organization. That's why we filter patient data from our network, organize it, and show you the right charts at the right time. Freeing your providers up to give each patient the time they deserve.

See what effective interoperability looks like at athenahealth.com/henry-schein-free | FREE UP
